

### **REMARKS**

In a Requirement for Restriction issued on June 6, 2007, the Examiner restricted the examination of claims 1-41 in this application. Specifically, the Examiner required the Applicants to elect between the following claim groups:

- Groups I, claims 1-19, which are drawn to an electronic control module and a vehicle control system, classified in class 436, subclass 1+,
- Group II, claims 20-30 which are drawn to a method of manufacturing an electronic control module, classified in class 29, subclass 1+,
- Group III, claims 31-36 which are drawn to a system for manufacturing an electronic control module, classified in class 29, subclass 830+, and
- Group IV, claims 37-41 which claims are drawn to a supply of vent assemblies, classified in class 219, subclass 1+.

Although the Applicants do not concede the correctness of the requirement to restrict, the Applicants elect to prosecute the claims of Group I (claims 1-19). Therefore, the Applicants have cancelled the claims in Groups II, III and IV (claims 20-41) without traverse and without prejudice to the Applicants' right to include those claims in a divisional application.

If the Examiner believes that a telephonic interview will help speed this application towards issuance, the Examiner is invited to contact the undersigned at the telephone number listed below.

Respectfully submitted,

Date: July 6, 2007
